

Read Naturally SE 2.0.3 Update

Macintosh Network Installation Instructions

This document explains how to apply the Read Naturally Software Edition 2.0.3 update to existing installations of SE version 2.0, 2.0.1, and 2.0.2. First update the SE server software, and then update each workstation where the SE client software is installed. Separate instructions are provided for the following types of installations:

- Macintosh network installations (Mac OS X servers, Mac OS X clients, and Mac OS 9 clients)
- Windows network client installations

Important: It is very important that you backup your data before updating. This is an **essential** step and is your only insurance should something go wrong.

To back up your data:

1. From the Mac OS X computer hosting the SE server software. Start SE database utilities (**rnse_DBUtilities.app**) from the following location.

/Library/RNSEServer/

2. From the **Backup/Restore** tab, click **Create Backup**, and then click **Continue**.
3. Browse to the folder where you want to save the backup file, select the folder, and then click **OK**.
4. When the backup is finished, click **OK**.
5. Click **Quit** to close the database utilities.

Note: If you do not have the SE database utility, you can download it from the following web page:

www.readnaturally.com/support/products-se2dbUtil.htm

To update the SE server software on Mac OS X computers:

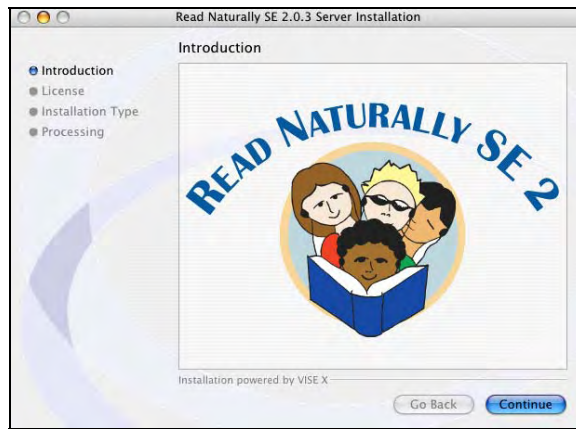

1. Download the installation file **rnse_203_OSX_server.dmg** from the following web page to the Mac OS X computer hosting the SE server software:

www.readnaturally.com/support/products-se203upd.htm

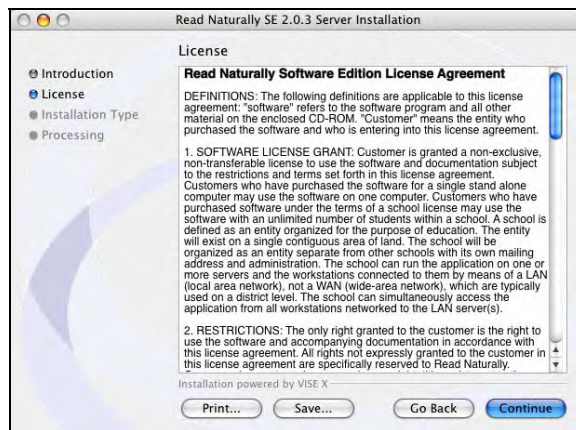

2. Locate the downloaded file on your computer and double-click it. This extracts a volume entitled **rnse_203_OSX_server**. If needed, double-click the volume to open it.
3. Double-click **RNServer_203_Mac** to start the upgrade. The Mac OS Authenticate screen displays. Enter the appropriate Mac OS administrator user ID and password, and then click **OK**

4. The Introduction screen displays. Click **Continue**.

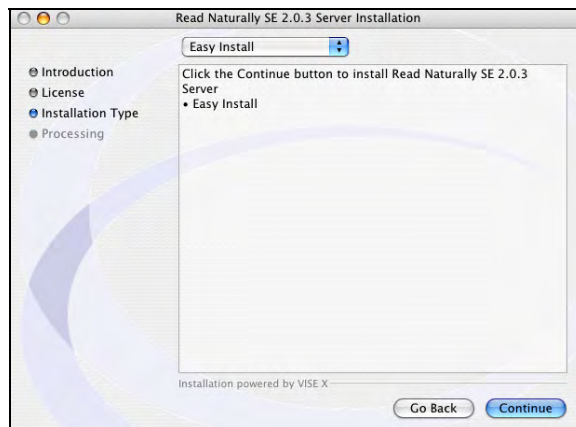

5. The license agreement displays. Read the license agreement (you can click **Print** to print it), and then click **Continue** to continue with the upgrade.

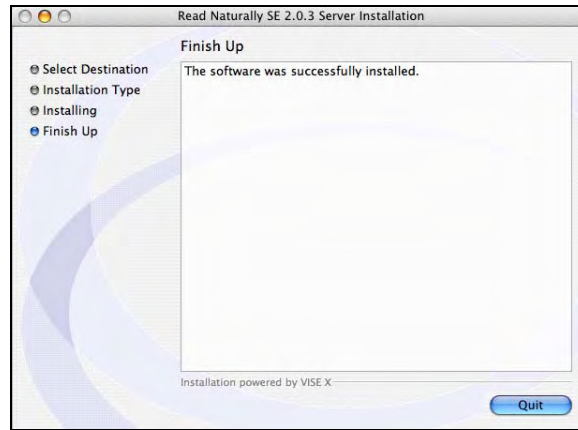

6. To continue the upgrade, you must **Agree** with the terms of the license agreement.

7. Click **Continue** to start the upgrade. The installer will take a few moments to find the existing installation. A bar shows the installation progress.

- When the update finishes, click **Quit**.

To update the SE client software on Mac OS X computers:

- From the Mac OS X client workstation, locate the installation file **InstallWkstn_Mac-X** in the following location on the computer hosting the SE server software:

/Applications/RNSEServer/RNSE_Client_Install/

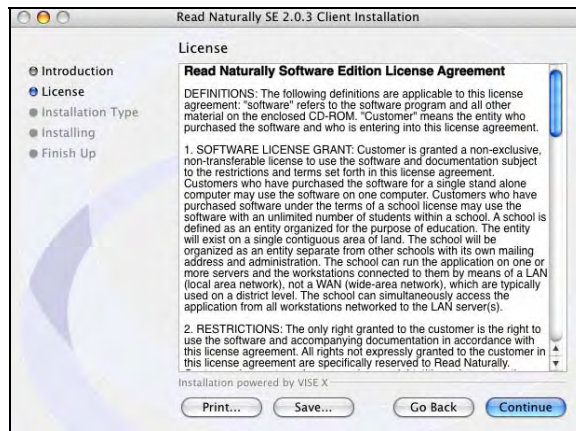

- Double-click **InstallWkstn_Mac-X** to start the upgrade. The Apple Authenticate screen displays. Enter the appropriate Apple administrator user ID and password, and then click **OK**.

- The Introduction screen displays. Click **Continue**.

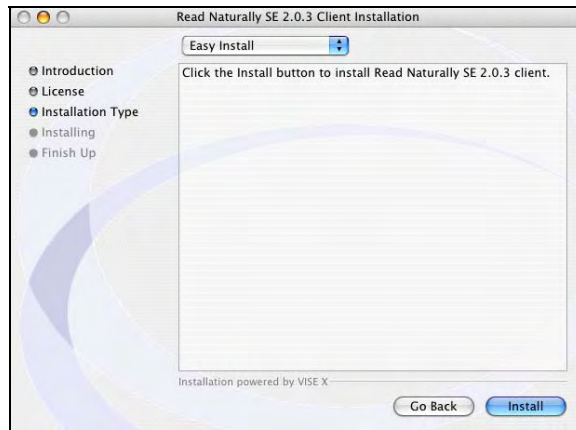

- The license agreement displays. Read the license agreement (you can click **Print** to print it), and then click **Continue** to continue with the upgrade.

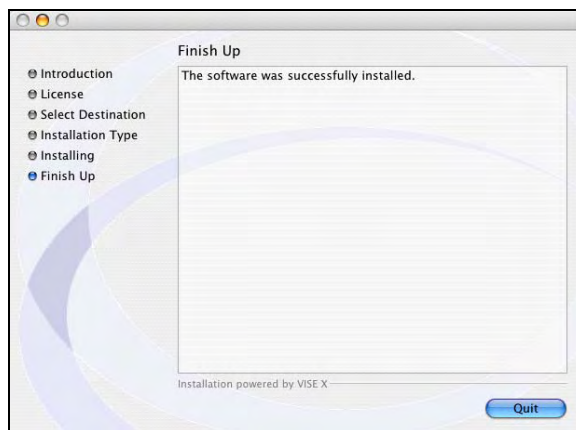

5. To continue the upgrade, you must **Agree** with the terms of the license agreement.

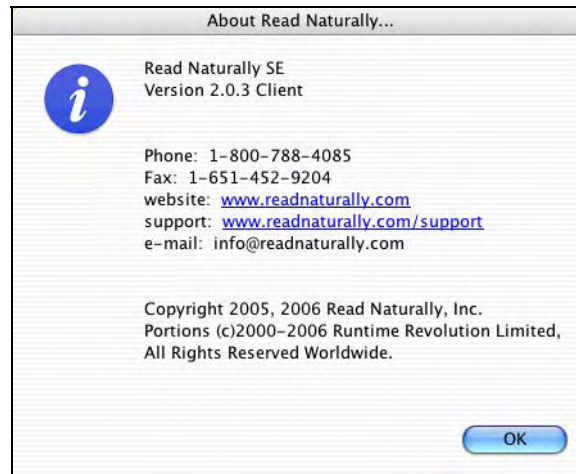

6. The Read Naturally SE 2.0.3 updater automatically locates the existing SE files. Click **Install** to start the upgrade. A bar shows the installation progress.

7. When the update finishes, click **Quit**.

8. Perform the following steps to confirm that the SE software has been updated:
 - a. Start Read Naturally SE. The login screen displays.
 - b. Choose **About Read Naturally** from the Read Naturally SE menu. The About window displays. It may take a moment for the About window to display, depending on the number of story levels installed and the speed of your server.

- c. Confirm that the SE version shown is **Version 2.0.3 Client**.
- d. Click **OK** to close the About window, and then click **Exit** to close the login screen.

To update the SE client software on Mac OS 9 computers:

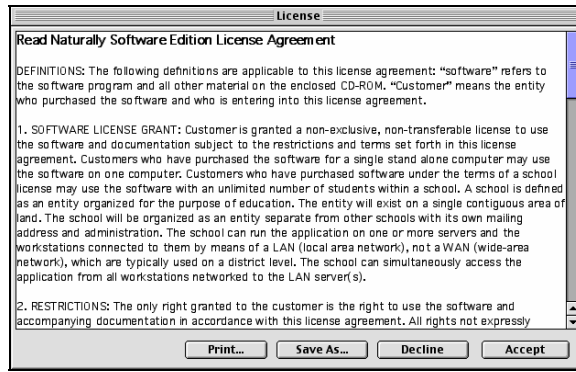

1. From the Mac OS 9 client workstation, locate the installation file **InstallWkstn_Mac-9** in the following location on the computer hosting the SE server software:

/Applications/RNSEServer/RNSE_Client_Install/

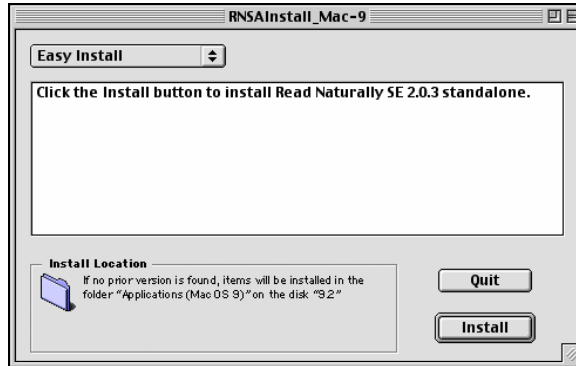

2. Double-click **InstallWkstn_Mac-9** to start the upgrade. The Read Naturally SE 2.0.3 Setup screen displays. Click **Continue**.

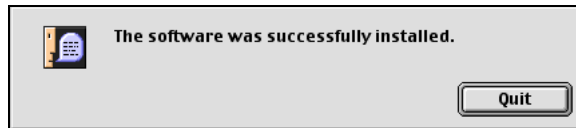

3. The license agreement displays. Read the license agreement (you can click **Print** to print it), and then click **Accept** to continue with the upgrade.

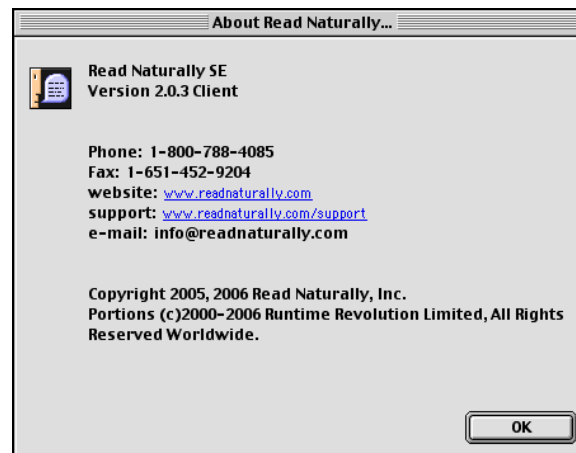

4. The Read Naturally SE 2.0.3 updater automatically locates the existing SE files. Click **Install** to begin installing the software upgrade.

5. When the update finishes, click **Quit**.

6. Perform the following steps to confirm that the SE software has been updated:
 - a. Start Read Naturally SE. The login screen displays.
 - b. Choose **About Read Naturally** from the Apple menu. The About window displays. It may take a moment for the About window to display, depending on the number of story levels installed and the speed of your server.

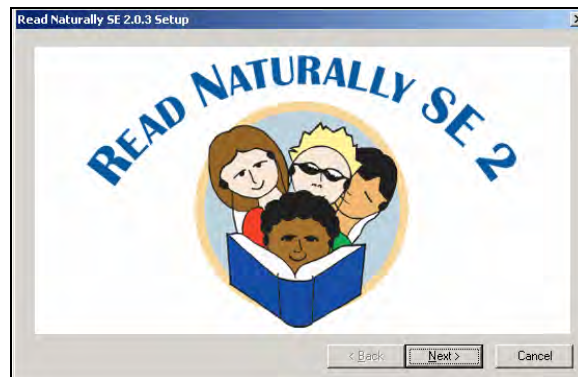

- c. Confirm that the SE version shown is **Version 2.0.3 Client**.
- d. Click **OK** to close the About window, and then click **Exit** to close the login screen.

To update the SE client software on Windows computers:

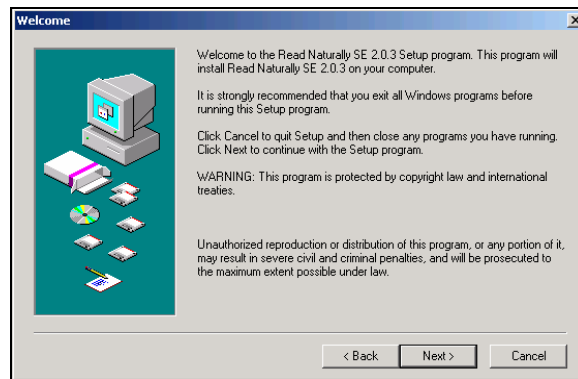

1. From the Windows client workstation, locate the installation file **InstallWkstn_Win.exe** in the following location on the computer hosting the SE server software:

/Applications/RNSEServer/RNSE_Client_Install/

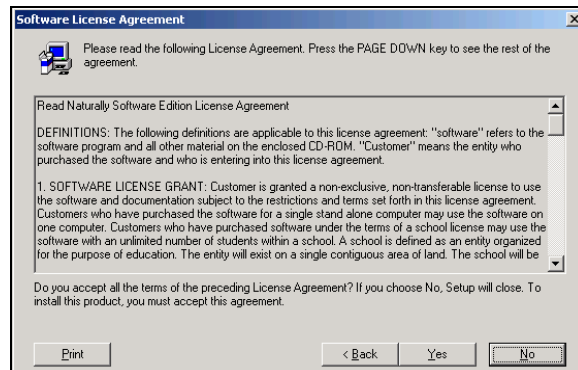

2. Double-click the **InstallWkstn_Win.exe** file. The Read Naturally SE 2.0.3 Setup screen displays. Click **Next**.

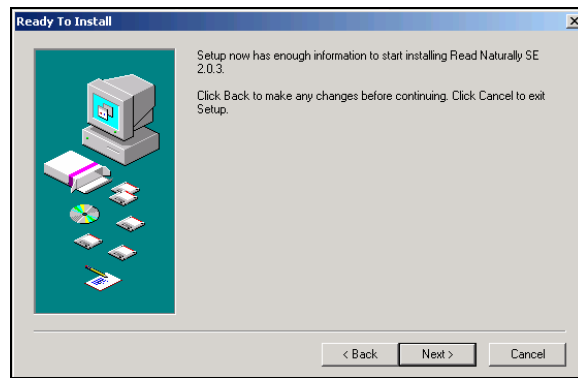

3. The Welcome screen will display. Click **Next**.

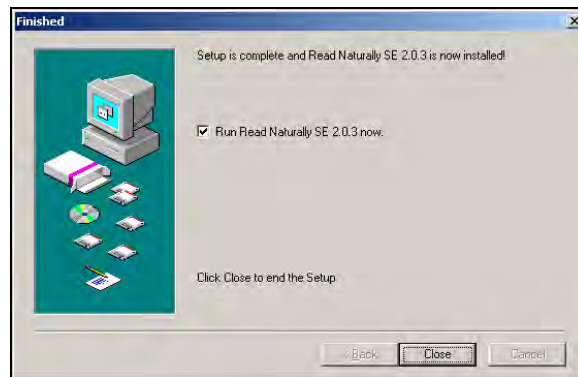

4. The license agreement displays. Read the license agreement (you can click **Print** to print it), and then click **Yes** to continue with the upgrade.

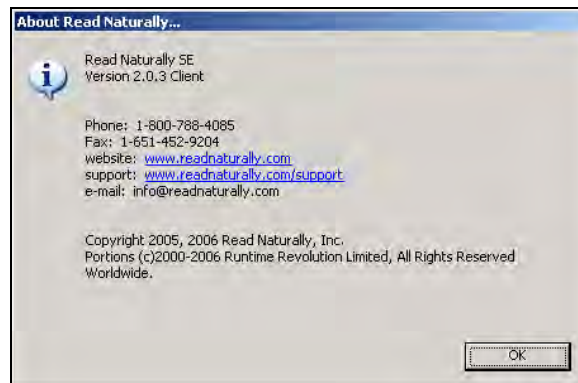

5. The Read Naturally SE 2.0.3 updater will automatically locate the existing SE files. Click **Next** to start the upgrade. A bar shows the installation progress.

6. When the update finishes, click **Quit**.

7. Perform the following steps to confirm that the SE software has been updated.
- Start Read Naturally SE. The login screen displays.
 - From the Help menu, choose **About Read Naturally**. The About window displays. It may take a moment for the About window to display, depending on the number of story levels installed and the speed of your server.

- Confirm that the SE version shown is **Version 2.0.3 Client**.
- Click **OK** to close the About window, and then click **Exit** to close the login screen.

Installing a New Client Workstation with Read Naturally SE 2 Software

If you need to install new workstations with the Read Naturally SE 2 software after completing the 2.0.3 update, please follow the client installation instructions in the *Read Naturally SE 2 Software Guide*. You can download the latest copy of the Software Guide from the Read Naturally website at:

www.readnaturally.com/pdf/se2_SwGuide.pdf

- To install the **Windows** workstation software, please refer to **page 31**.
- To install the **Macintosh** workstation software, please refer to **page 45**.
