*components of Read Live

Features of an RTI Model*...

- Student progress continually monitored
- Data-based documentation on each student
- Decisions made by a collaborative team of school staff based on comprehensive evaluation

- High-quality instructional and behavioral supports
- Appropriate interventions to address individual students' difficulties at the needed level of intensity and with support of needed resources and personnel
- Systematic documentation verifying fidelity, integrity, intended intensity of interventions
- Written document describing components and structure of intervention

- Scientific, research-based intervention delivered by qualified personnel

Supported by Read Naturally® Assessments and Programs

Read Naturally Assessments & Documentation

...provide data for decision-making by collaborative teams:

Benchmark Assessor Live (a component of Read Live)

Web- and paper-based screening tool for assessing overall reading proficiency at grade level

Reading Fluency Benchmark Assessor

Computer- and paper-based screening tool for assessing overall reading proficiency at grade level

Reading Fluency Progress Monitor

Continuous student monitoring throughout the year to measure growth in reading proficiency

Quick Phonics Screener

Diagnostic assessment to identify strengths and needs in phonics/decoding

Read Naturally Research-Based Programs

...provide high-quality, motivating instruction:

Read Naturally® Live (a component of Read Live)

Individualized reading intervention program using web-based software

Read Naturally® Encore

New individualized reading intervention program using printed stories and audio CDs

Read Naturally® Masters Edition

Individualized reading intervention program for specific audiences using printed stories and audio CDs

Read Naturally® Software Edition

Individualized reading intervention program using computer software

One Minute Reader®

Individualized reading intervention program for home use

Group and Tutoring Edition (GATE) for Phonics

Direct instruction phonics/fluency program for early readers

Word Warm-ups®

Individualized phonics program to develop automaticity in decoding

Signs for Sounds™

Individual/small-group instruction that teaches phonics and high-frequency words through spelling

Take Aim! at Vocabulary™

Individualized vocabulary program that teaches high-quality words through audio-supported lessons

Read Naturally Professional Development

...qualifies personnel to administer assessments and to deliver scientific, research-based interventions:

Public Seminars ■ Train the Trainer ■ On-Site Training ■ Self-Study
