Add Dr. Jan Hasbrouck’s Quick Phonics Screener (QPS) to your reading assessment toolkit. The third edition of this proven diagnostic phonics assessment (published in 2017) includes the new Quick Spelling Survey (QSS)—a time-saving spelling assessment you can administer to a group or to a whole class.

Use QSS results to determine which students may need a one-to-one QPS assessment. QPS and QSS identify each student’s strengths and instructional needs in phonics—decoding and encoding.

QPS provides...
- Three forms for fall, winter, and spring assessments.
- Convenient QPS and QSS summary score sheets.
- Student examples to help you interpret results.

Need passages to quickly assess oral reading fluency? The Reading Fluency Progress Monitor (RFPM) tracks individual student progress in reading. The 30 fiction and nonfiction passages for each grade level have strong validity and reliability.

RFPM provides...
- Multiple field-tested passages of equivalent difficulty in each level.
- A tool for frequent assessment required by RTI or MTSS.
- Reproducible forms to record and graph student performance over time.
