BUGS!

A LITTLE BOOK OF FUN FACTS

Bees have five eyes and can fly about 15 miles per hour.

Fleas don't have wings. They can't fly. Fleas can jump. They can jump more than a foot.

Flies can taste with their feet.

Many mosquitoes live their whole lives within a few hundred feet of where they hatched.

THE END!

Some moths are tiny. One has a wingspan of only a quarter of an inch. Some moths are big. One has a wingspan of almost a foot.

People eat some kinds of stink bugs. In some places, people use them to flavor stews.
