

Single Sign On Set-up: Clever

Read Naturally has partnered with Clever to provide a Single Sign-On solution that allows student access through their Clever portal.

☐ **Enable Clever SSO**

1. Clever Administrator requests the Read Live app from their Clever Admin portal.
2. Read Naturally support approves the request within 2 hours.
3. Clever Administrator will share the Read Live Clever app with Students.
4. Read Live Administrator and Clever Administrator will update the Read Live Account to Clever SSO.
Student Administration > Single Sign-On Setup > Clever.
Enter the Clever **District ID** and click **Save**.
5. Because this solution is Single Sign-On Only, Students will still need to be Rostered in Read Live, either [individually](#) or by [import](#).

Note: The students email address must be entered as part of the student details when a student is rostered in Read Live. The email address is what connects Read Live and Clever SSO.
