Monitoring Student Performance

Create ongoing challenge to maximize achievement:

- The student should be challenged, but not frustrated, by the level of text difficulty.
- The student should be able to reach the goal—not easily, but with effort.

Monitoring Student Performance

Monitoring Student Performance

Use student data to:

- Check the student's initial placement after three stories.
- Keep the student challenged over time.

Checking Initial Placement

Two Phases of Placement:

- Conducting Initial Placement
- Checking Initial Placement

Compare the student's average data from the first three stories to:

- Initial Level Criteria
- Initial Goal Criteria

Initial Level Criteria

- Student's average cold-timing score is within the range for the placement level (see table).
- Student's average quiz score is at least 60%.
